Royal UV

Special for UV ink printing, UV metal printing

Characteristics

- UV-curable ink, UV-resistant; balance between dots and solid areas.
- It is easy to use, the thickness of the surface glue changes little, and the printing quality is stable and excellent.
- Suitable for offset press ≤ 15000 rph

Properties

Construction	3 piles fabric 1,96 mm
Type	Microsphere
Surface	Micro-ground EPDM
Roughness	0,90-1,00 μm
Hardness	78-80 Shore A
Elongation	$\leq 0.9\%$ (500N/5cm)
Compressibility	12-16
Colour	Red
Gauges	1.97 mm
Thickness tolerance	+/- 0,02 mm
